INTRODUCTION

R. L. POLK & CO., publishers of more than 750 city, county, state and national Directories, present to subscribers and the general public, this, the 1946 edition of the Bay City Directory, which also includes Essexville.

Confidence in the growth of Bay City's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Bay City to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Bay City Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, pages 12 to 17, on white paper, presents lists of city, county, township and federal officials; post office, public school and court Directories; statistical review; and manufacturing, trade and civic surveys.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 21 to 319, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Bay City and Essexville, and the name, official personnel, nature and address of each firm and corporation.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 321 to 400. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 112, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Bay City and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Bay City, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory Service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 513 to 563, on white paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Bay City and Essexville.

The Bay City Directory Library

Through the courtesy of the publishers of the Bay City Directory, a Directory Library is maintained in the offices of the Bay City Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Bay City Filtration Plant

General Review

Modern Bay City, with a population of 52,000, and sprung from the roots of an international reputation in lumbering, is a prominent spoke in the industrial wheel of Michigan. The city has all the basic features of a manufacturing center, with none of the customary drawbacks. Here industry is diversified. Brooms and locomotive cranes, potato chips and automobile and airplane parts, steel ships and silk stockings, magnesium castings and peanut butter, cigars and electric welding machines, are only a few of the things manufactured.

Transportation facilities embrace four railroads—the Michigan Central, Pere Marquette, Grand Trunk and Detroit & Mackinac; several major trucking lines; an air taxi service north and south; and Saginaw River harbor, on Saginaw Bay, an arm of Lake Huron, is a regular port of call for the largest freighters on the Great Lakes. Bay City, with Saginaw and Midland and the Civil Aeronautics Administration, has built a super airport equidistant from the three cities at Freeland, at a cost of several million dollars.

Bay City's background is rich and picturesque. Nine years ago, in 1937, the city observed its 100th birthday anniversary. This was once the camping ground of the Chippewa Indians, part of Saginaw Valley, then nestled in the midst of a fruitful pine land. The cutting of these forests formed

an industry of immense proportions for those times and earned for Bay City the title "Lumber Queen of the World." Many colorful chapters of dynamic events in the history of logging in Michigan were written in and around early Bay City. When lumbering was at its height, more than 40 sawmills were located on the river banks. Now all but one have gone, to be replaced by other manufacturing plants.

Bay City is the governmental seat of Bay County, a highly productive agricultural area that features, among other things, sugar beets. The sugar beet refinery here is the largest east of the Mississippi. Beans, corn, oats, rye and wheat also are feature crops.

The growing of extra fine melons, tomatoes and other produce makes this the gardening spot of Michigan, and an important source of supply for many of the larger cities of the Middle West.

Bay City is not a town of portable citizens, sometimes called "Floaters." It is a city of thrifty home-owners (approximately 80%) who take justifiable pride in building their community into a more pleasant and profitable place in which to live.

Bay City is the portal of the famed tourist playground of northern Michigan—summer and winter. Hereabouts are the best boating, bathing, fishing, hunting and camping. The Michigan State Park on the bay shore, beautified to emphasize nature's work there, is second to none, and is popular with hundreds of thousands from all over the land. Colonies of cottages skirt the water's edge for miles up and down the shore.

With an area of 10.5 square miles, Bay City has the modern equipment of the modern city. Its \$2,000,000 filtration plant supplies drinking water "to the queen's taste." Its \$2,200,000 public high school and junior college are keystones of educational facilities that also include 14 parochial schools. Wide, well-lighted streets and boulevards that are generously shaded by great trees, are sources of convenience, comfort and pleasure which Bay City has not overlooked in its march of progress.

Through its Chamber of Commerce, with headquarters on the Wenonah Hotel mezzanine, Bay City is shaping its course toward steady, healthy, well-balanced progress and the worth-while dividends of diversified community development.

Limit for Canal Zone is \$200.

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

**Don't Contribute to
Counterfeiters
KNOW YOUR MONEY!**

**Don't Be Fooled by
Forgers
KNOW YOUR ENDORSERS!**

The Government never redeems counterfeit money!

1. **KNOW YOUR MONEY!** Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. **COMPARE** a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT *Counterfeit*—Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.

Genuine—Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.

COLORED SEAL *Counterfeit*—Saw-tooth points around rim are usually uneven, broken off.

Genuine—Saw-tooth points around rim are even and sharp.

SERIAL NUMBERS *Counterfeit*—Poorly printed, badly spaced, uneven in appearance.

Genuine—Figures firmly and evenly printed, well spaced.

PAPER *Counterfeit*—Generally has no silk threads, but these may be imitated by very small red and blue ink lines.

Genuine—Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. **RUBBING** a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. **CONSULT** an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. **REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.**

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or \$7.50 per 100, from the Superintendent of Documents, Government Printing Office, Washington, D. C.

The Services of R. L. Polk & Co.

DIRECT MAIL ADVERTISING FOR THE COUNTRY'S LEADING INDUSTRIES

• Polk's Direct Mail Advertising Division—one of the world's largest—specializes in high-quality, productive advertising. America's greatest industries are Polk's long-time clients. Polk's direct mail advertising service is *complete* . . . consultation, research, testing, creating, printing, producing, and distributing to *selected prospects*. A live organization of experienced business men who know the principles of selling. Production plants are geared to handle better than two million mailings daily.

The direct mail advertising services of R. L. Polk & Co. are available to American business, dedicated to helping them produce the increased sales volume necessary to our modern economy.

AUTOMOBILE AND BUSINESS STATISTICAL HEADQUARTERS

• Since 1922 Polk has been statistician for the Automobile Industry. Polk total count of passenger cars, trucks, motorcycles and trailers by make, by year model is the only annual inventory of the country's automotive equipment. Polk's new passenger car and truck reports furnish manufacturers and dealers with a monthly recapitulation of all sales for each territory.

The first business census of the U. S. was a Polk project, giving statistics covering the number of manufacturers, wholesalers and retailers for each state, county and town in the U. S.

These statistical services are available to American business to enable them to plan intelligently their production, distribution and sales.

SURVEYS AND CONSUMER RESEARCH

• Polk's facilities are the largest in the country for fast, accurate research, surveys, and analyses, built on experience gained through nationwide home and business canvasses each year. Polk's Branch Plants, Branch Offices, and associated offices in strategic cities are staffed with trained personnel, *able to move fast, on any job.*

NATIONAL MAILING LISTS AND MAILING SERVICES

• The people of America are in Polk's list files . . . all businesses, all trades, professions and vocations . . . obtained through personal canvass. Polk also lists all passenger car, truck, commercial car, trailer, motorcycle owners—by make of car, by model, by year, by state, county, town. Know-how gained in filing more than 75 million names annually is available to Polk clients, for any kind of list or mailing service. Facilities for multigraphing, ditto, photo-offset, letterpress printing, reproduction of forms, questionnaires or letters and complete addressing, imprinting and mailing services are available at Polk Headquarters or Branch Production Plants.

These lists are the customer lists for the new products of Peacetime America . . . the prospects for every industry's production. Polk can reach them DIRECT for you, with the right kind of sales message.

DIRECTORY PUBLISHERS FOR 750 CITIES AND TRADES

• For seventy-six years, Polk City Directories have been the accepted basis for population listings in hundreds of American cities. Polk cooperates in the maintenance of City Directory Reference Libraries in cities throughout the United States and Canada. Polk's Bankers' Encyclopedia is the outstanding Directory in the banking field. There are Polk offices in 30 principal American cities.

Polk directories are current population inventories for the cities of the Country . . . tracing the shifting of America's families from wartime to peacetime endeavor.

WAR WORK

• After Pearl Harbor, the major plant service and skills of R. L. Polk & Co. were at the disposition of the armed services, for war work. Polk was entrusted with two of the largest and most complicated war jobs, for Army Ordnance and Air Corps, requiring tripling of Polk's plant space, plus the services of most of Polk personnel.

With Peace, the Polk plants and the Polk skills have been released for the job of helping the industries of America rebuild a stronger business structure, and upon these skills will be built a new and even greater Polk organization!

Directory of Householders, Occupants of Office Buildings and
Other Business Places, Including a Complete
Street and Avenue Guide

1946

INCLUDING ESSEXVILLE

Copyright, 1946, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled in with named streets in their regular Alphabetical order.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes houses and places of business having telephones.

Out of Sight!

Out of Mind!

Out of Business!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

THE HOME-OWNER SYMBOL, in the Householders' Guide of the New City Directory, designates Home-owners on every Street and Avenue in the city. As a means of Checking Credits, conducting Direct Mail Campaigns, Sales Planning, Prospect Lists, etc., it is of invaluable assistance.

THE BELL SYMBOL designates Telephone Subscribers and appears in the Householders' Guide following street numbers.

NEW FEATURES and **DEPARTMENTS** are constantly being adopted in our efforts to improve and add to the recognized value of the City Directory service demanded by the public.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

*A Unique Service Provided
By The Publishers of Your City Directory*

The publishers of this Directory maintain for the use of their subscribers and the general public a complete library of late out-of-town City Directories. We invite you to consult this library when in need of names and addresses of individuals and firms in other cities. It is especially designed for the reference use of business men who subscribe to the local City Directory, when seeking markets and sources of supply outside this city. There is no charge except for extended continuous use. The library, with attendant in charge, is located at:

Chamber of Commerce

Wenonah Hotel Bldg.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
